

MOREGANICS®

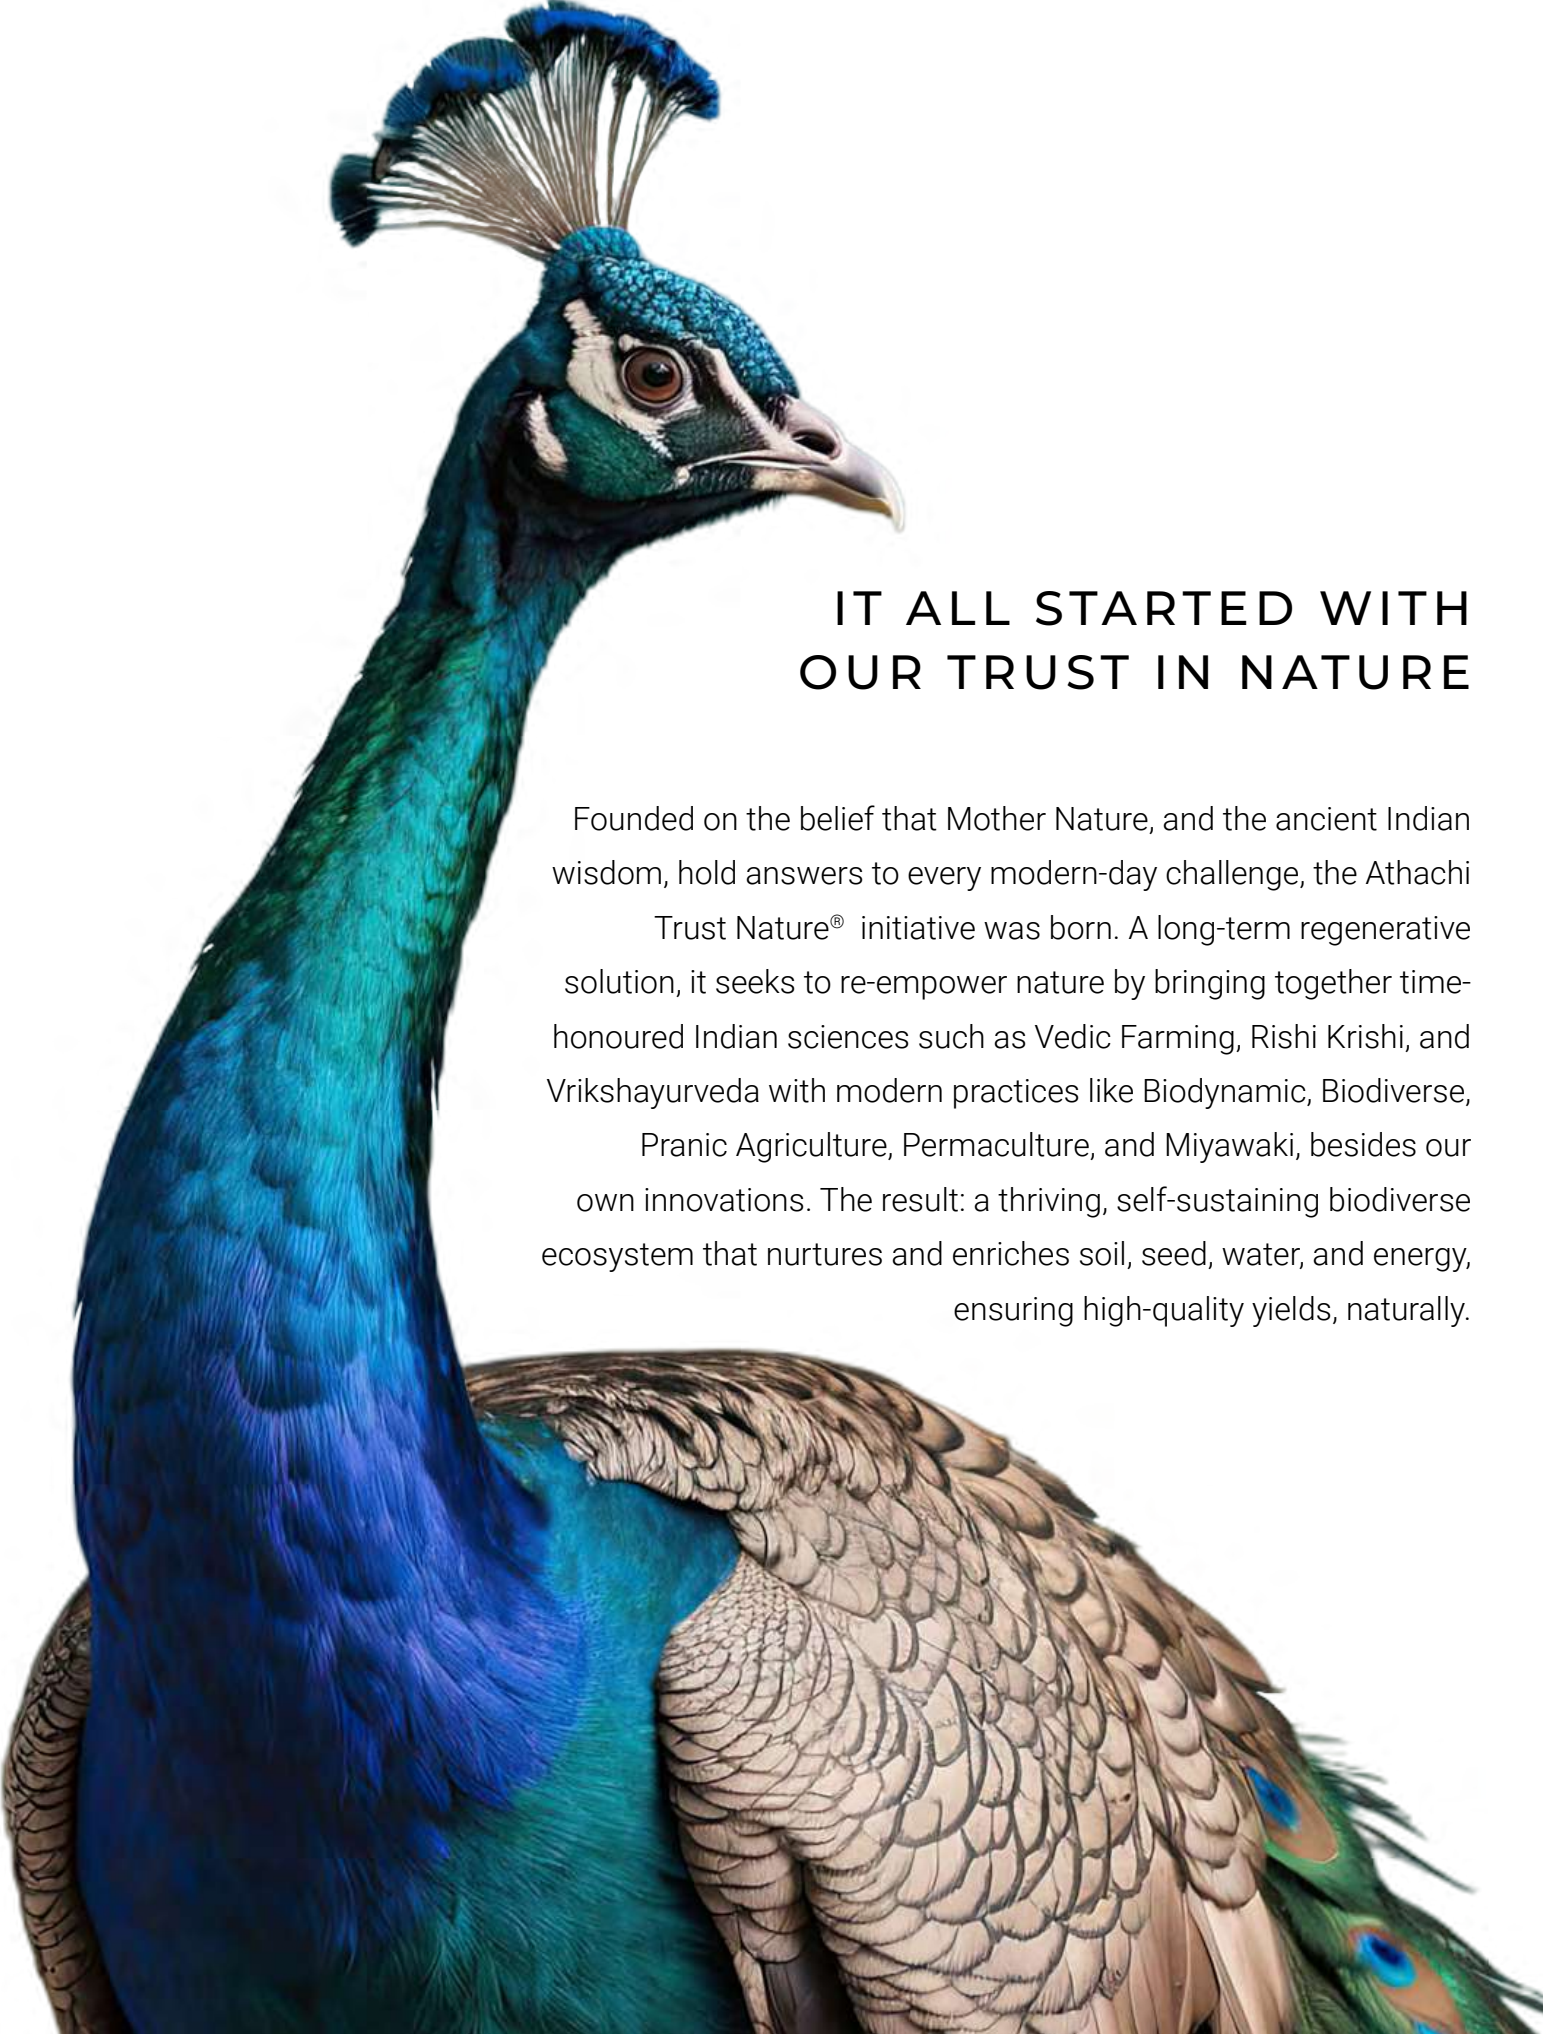

AN ODE TO
GRACEFUL ELEGANCE

ALL ABOUT CELEBRATING NATURAL BEAUTY

Epitomizing an indulgence par excellence, the finest bouquet of limited-edition, ultra-luxury, pure botanical formulations from MOREGANICS® echo our ethos of preserving and furthering natural beauty, as well as the beauty of nature. As envisioned by the Trust Nature® initiative, the range would leave a positive footprint on the ecology, preserving the beauty of mother nature – one farm at a time.

IT ALL STARTED WITH OUR TRUST IN NATURE

Founded on the belief that Mother Nature, and the ancient Indian wisdom, hold answers to every modern-day challenge, the Athachi Trust Nature® initiative was born. A long-term regenerative solution, it seeks to re-empower nature by bringing together time-honoured Indian sciences such as Vedic Farming, Rishi Krishi, and Vrikshayurveda with modern practices like Biodynamic, Biodiverse, Pranik Agriculture, Permaculture, and Miyawaki, besides our own innovations. The result: a thriving, self-sustaining biodiverse ecosystem that nurtures and enriches soil, seed, water, and energy, ensuring high-quality yields, naturally.

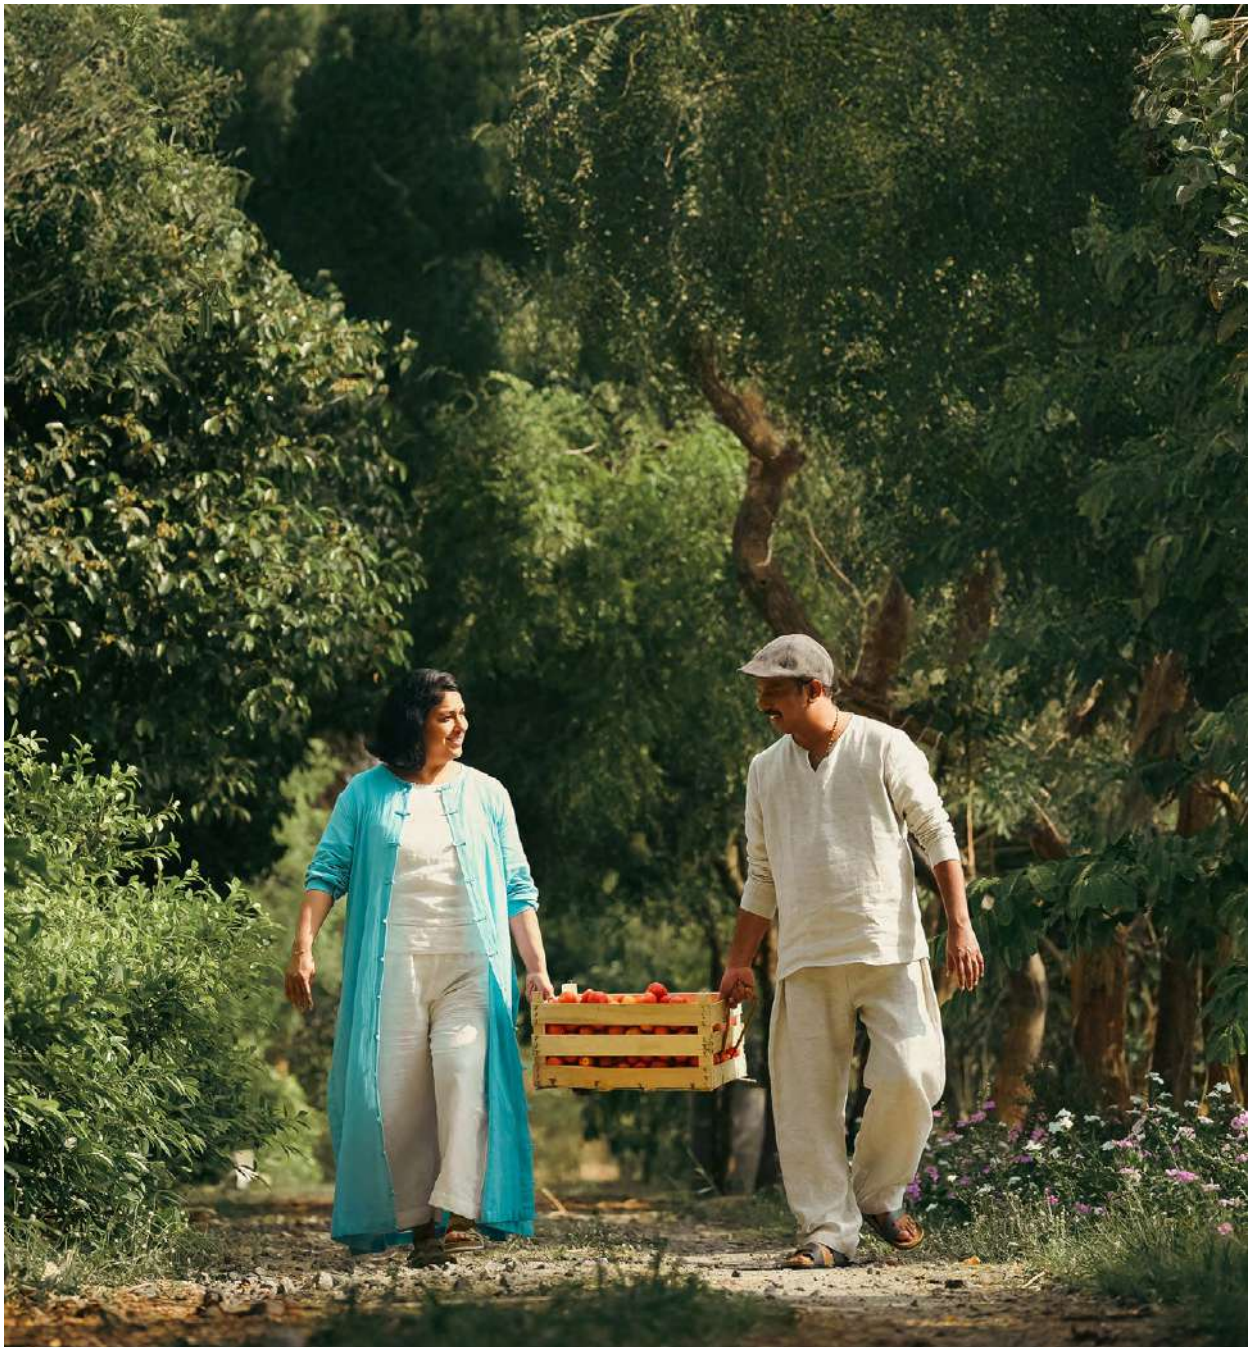

THE MAGICAL JOURNEY FROM A MYSTICAL LOCATION

Palakkad Gap is a geological wonderland that was part of the present-day Madagascar till the tectonic plates decided to rip them apart 80-million years ago. The only mountain pass in the Western Ghats that funnels intense monsoon winds into this region, this biodiversity hotspot has myriad brooks and rivulets, micronutrients-rich alluvial soil, enabling natural growth of rare and potent herbs used in medicinal remedies and beauty formulations.

ATHACHI FARMS A MANIFESTATION OF TRADITION AND INNOVATION

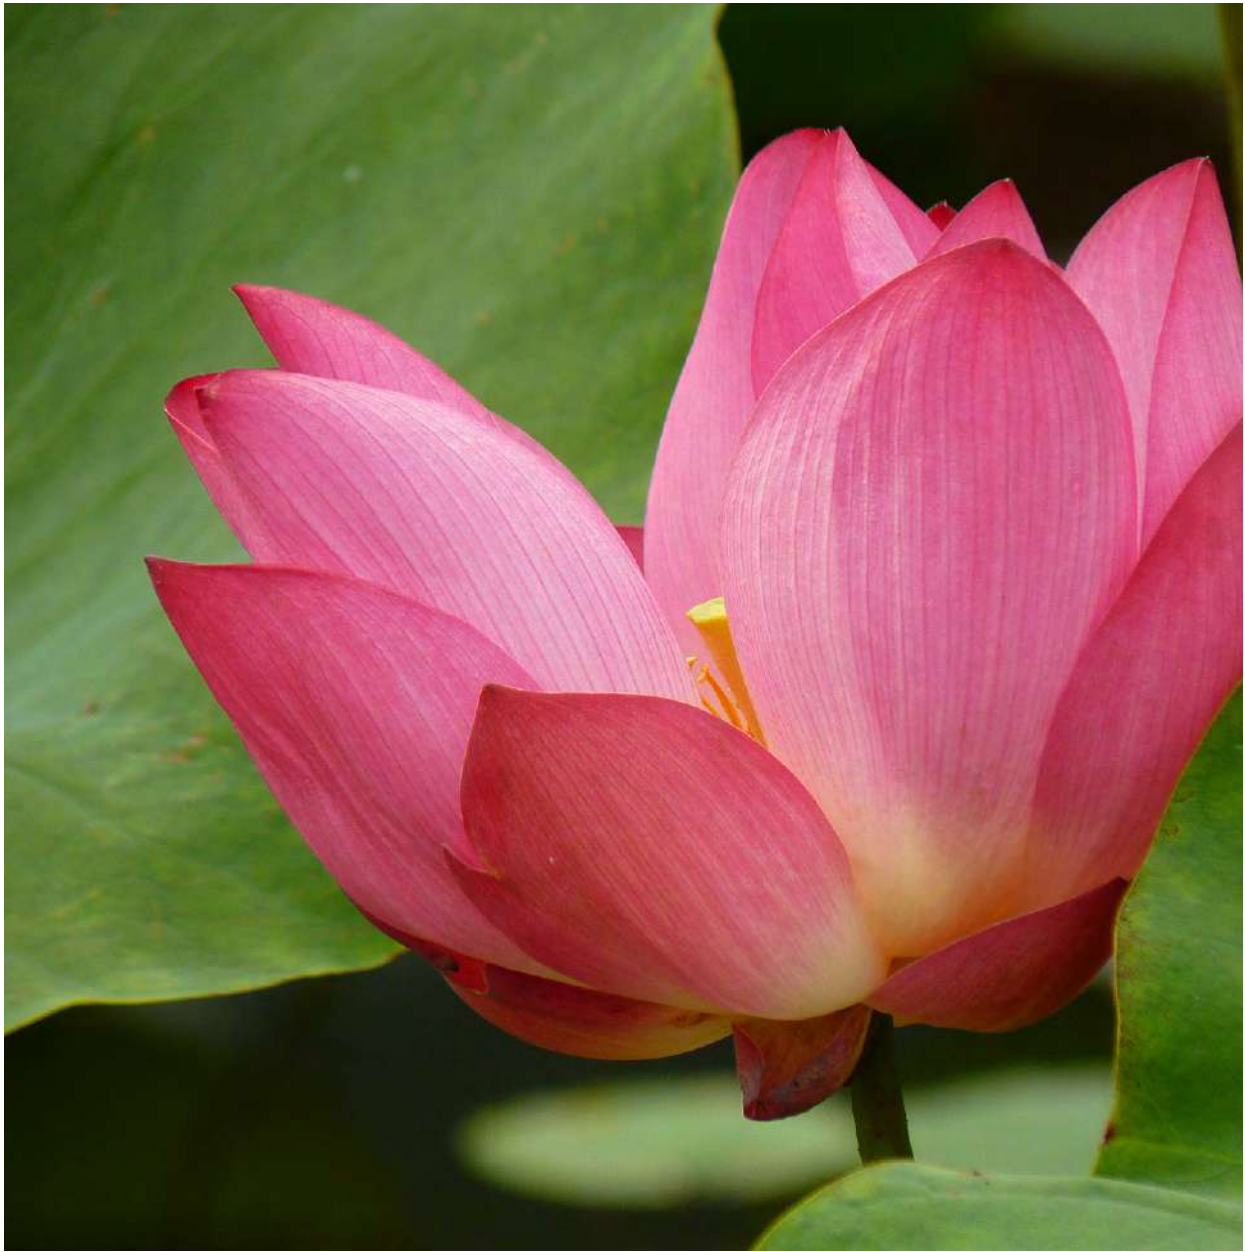

A testament to our commitment to the Trust Nature® initiative is our once barren, now thriving 20-acre biodiverse, agroforest farm at the Palakkad Gap. From this happy farm sprout the purest botanicals, yielding high-potent ingredients.

SEEDED IN SCIENCE CULTIVATED BY NATURE

When our R&D team discovers that a particular phytochemical delivers superior benefits for the skin, we trace it back to the plant variety where it occurs in its most potent and balanced form. We then procure the native seed of that variety and cultivate it with care. The pumpkin we nurture, for instance, is a rare Korean variety, celebrated for its velvety creaminess and nutrient density - qualities that make it exceptional for skincare.

CULTIVATING WITH CONSCIOUS PRECISION

Our proprietary More Than Organic™ method of farming goes far beyond conventional organic practices. We employ herbal and mineral preparations crafted from our own farm-grown botanicals, along with nutrient-rich vermicompost, to restore the soil's vitality naturally, eliminating the need for synthetic chemicals. A holistic system that allows each herb to develop its full potency and therapeutic richness, just as nature intended.

OUR BOVINE HEROES BEHIND REGENERATIVE FARMING

Rooted in ancient Indian science, our cow-centric farming methods give cows their place of honour. Revered for millennia as Kamadhenu - the symbol of fertility and sustenance, they give more than the nourishing milk, they bestow Panchagavyam - a potent elixir derived from five substances obtained from them. A wonderful organic manure, this invigorates the soil, enhances plant immunity, and nurtures herbs to thrive with vitality.

A SACRED PARTNERSHIP WITH NATURE

Vedic Farming embraces a holistic approach - from reading the skies and understanding the rains, to preserving seeds, and timing sowing and harvest. It sustains harmony with elements of nature, treats indigenous cattle and poultry as part of the ecosystem, their manure and organic by-products as natural fertilizers. Pest balance maintained with herbal extracts, fermented preparations, and companion plants that gently guide them away.

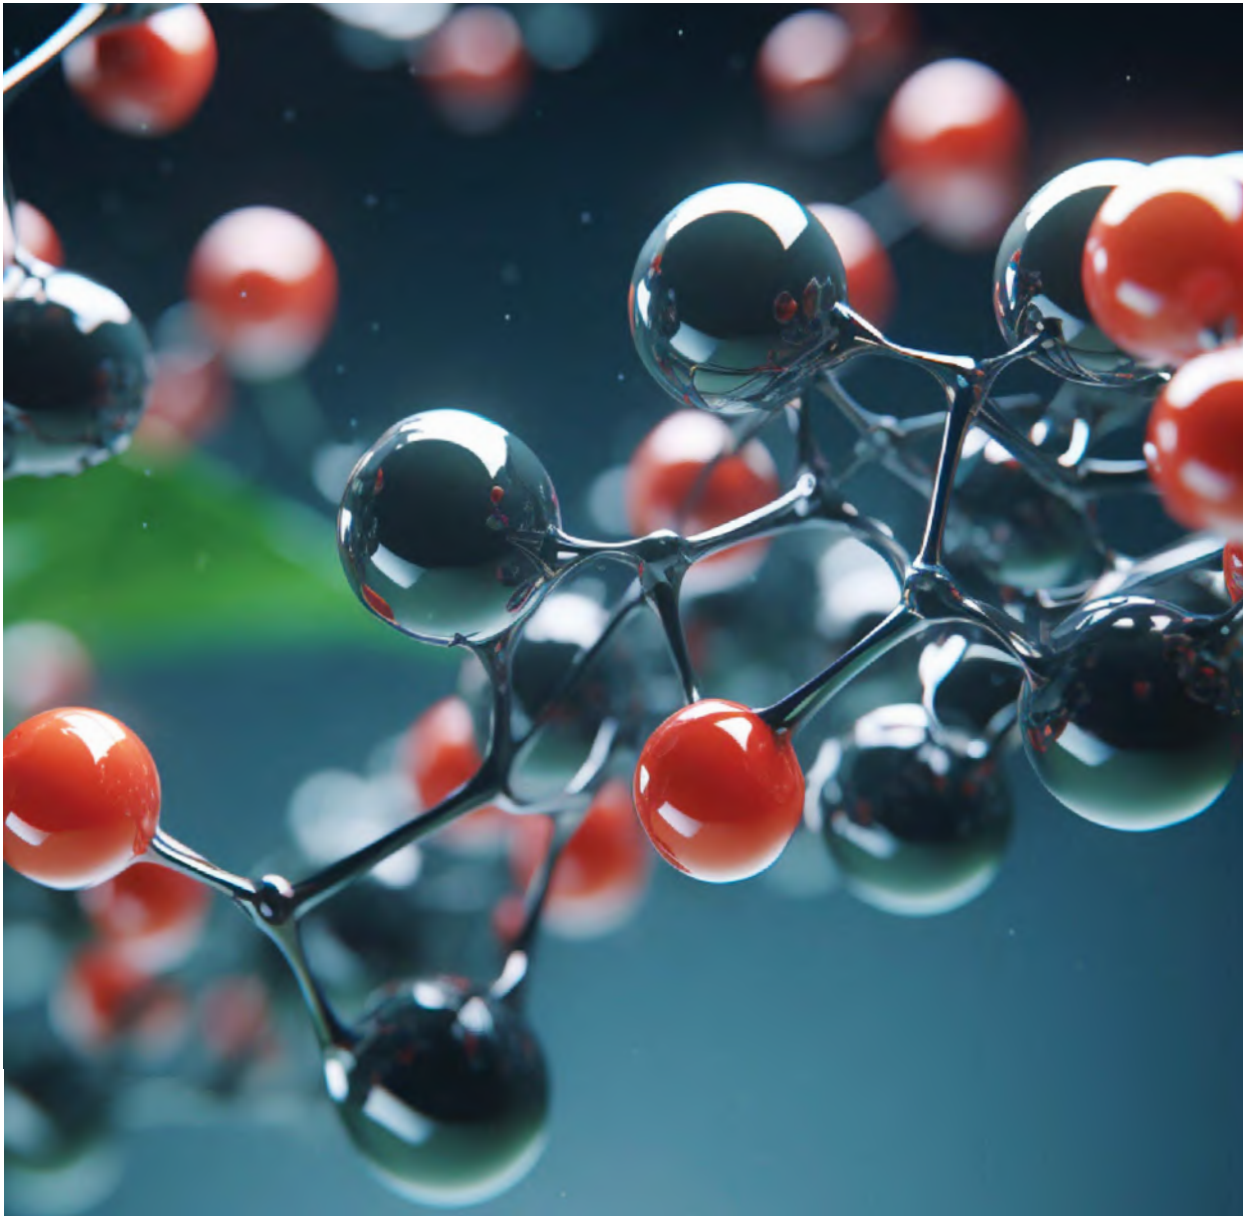

RICHES FROM EARTH'S SKIN READY TO PAMPER YOURS

We celebrate the skin as nature celebrates the earth - with reverence, care, and balance. This devotion finds expression in our exquisite range of skincare formulations, infused with the most potent herbal extractions the earth bestows. Just as the greens shield the earth from the stresses of time and environment, our formulations protect and renew the skin, preserving its vitality, restoring its strength, and rekindling its natural radiance.

ARTISANS OF THE FINEST BEAUTY CARE

Each of our ultra-luxury beauty care formulation is an outcome of a passionate and arduous journey into research undertaken by the sister-brother-duo, Ms. Deepa Subramanian and Dr. Vishwanath Subramanian. Their quest to unearth the revitalizing potential of rare botanical extracts in their purest form has led to the masterful creation of a bouquet of finest offerings from MOREGANICS®.

CAPTURING THE FULL POTENCY OF NATURE THROUGH SUPERCRITICAL CO₂ EXTRACTION

We harness the power of Supercritical CO₂ Extraction - an advanced method that uses carbon dioxide in its supercritical state to selectively extract bioactive compounds with exceptional precision and purity, without the use of harmful solvents.

Its tunable temperature and pressure control preserve the delicate integrity of natural actives vital for skincare efficacy. The result: formulations of unmatched potency, designed for precise and effective delivery.

As the most eco-friendly extraction technology available today, Supercritical CO₂ Extraction enables us to achieve purity, sustainability, and innovation - from farm to formulation - setting new benchmarks for skincare that is grounded in science, yet rooted in nature.

DEEP DELIVERY SYSTEM FOR PRECISE & CONTROLLED REACH

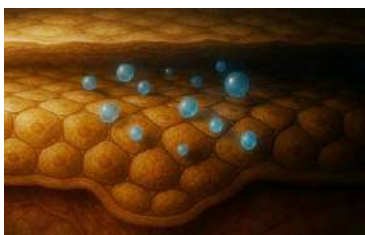

A new era of skincare is upon us, where delivery is as vital as the ingredients themselves. The Deep Delivery System (DDS) is an advanced skincare technology that employs nanoparticle-level micro-carriers to enhance the penetration of active ingredients through the seven layers of the skin. DDS ensures precise, targeted delivery of actives to the deepest dermal layers, enhancing their efficacy.

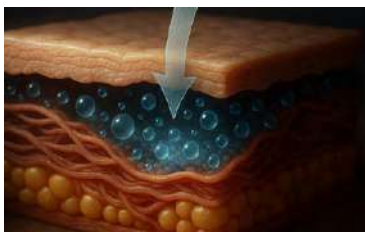

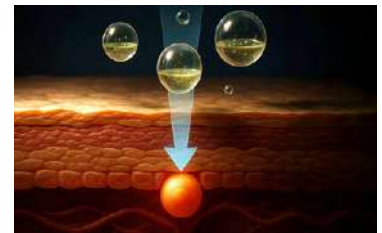

The Gateway: Stratum corneum, the skin's outermost layer, defends external aggressors and seals in essential moisture. DDS Amplifiers gently soften this barrier, increasing permeability without causing disruption, letting the first wave of actives in.

The Transition Zone: Skin cells begin to evolve at the stratum granulosum level, producing natural moisturizing factors (NMFs) and vital lipids. DDS delivers targeted hydrating and conditioning actives to reinforce this process, enhancing moisture retention.

The Serenité Core: Serving both structure and immunity, the stratum spinosum maintains calm and balance. DDS brings anti-inflammatory and soothing agents directly to this layer, easing microstress and reducing signs of reactivity at their origin.

The Youth Code: Renewal begins in the stratum basale, where new skin cells are born. DDS transports SCFE-CO2 extracted actives into this foundational layer, preserving their potency and ensuring high-efficacy delivery for visible revitalization.

The Deep Matrix: At the level of papillary dermis, nutrient exchange and moisture retention shape the skin's texture and suppleness. DDS infuses humectants into this layer, supporting long-lasting hydration, improving elasticity, and restoring softness from within.

The Reservoir of Luminosity: The reticular dermis holds the skin's deep hydration and structural integrity. DDS Amplifiers carry pro-collagen actives into this matrix, helping to rebuild density, enhance firmness, and elevate the skin's luminous resilience.

The Celestial Sanctuary: At the foundation lies the hypodermis, an essential hub for energy, cellular health, and recovery. DDS delivers adaptogens and nourishing oils, restoring inner balance, reducing deep-set stress, and supporting repair at the source.

ENRICHING ELIXIRS
FOR ETHEREAL BEAUTY

WAKEUP TO A NEW DAWN IN LUXURIOUS RADIANCE

CEL'STRA NOCTURNE GLOW ELIXIR CREME

₹650,000 INR
\$7,222 USD
Size: 50 gms

On the horizon of ultra-luxury skincare alchemy, a comprehensively luxurious master formulation emerges but once in a rare while, transcending boundaries of what a creme ought to offer to the skin. CEL'STRA Nocturne Glow Elixir Creme from MOREGANICS® is one such exceptional phenomenon that does not just penetrate the skin, but transforms it from within.

Born from our thorough understanding of the skin, in-depth wisdom of potent botanicals, precious minerals, and next-generation delivery science, CEL'STRA represents our most potent expression of luxury and efficacy, where Ayurveda-inspired ancient Indian wisdom meets cutting-edge cellular dermatology.

THE PINNACLE OF SKIN AWAKENING

KEY BENEFITS

- Provides an illuminating and unifying effect on skin tone
- Stimulates natural skin renewal and regeneration, supporting healthy cell turnover for revitalized skin
- Restores skin integrity by maintaining its natural protective barrier
- Improves epidermal and dermal layers for smoother, firmer, and youthful-looking skin
- Enhances hydration by reinforcing the skin barrier and reducing trans epidermal water loss
- Promotes skin biomechanical properties by boosting collagen and elastin synthesis
- Augments skin firmness and elasticity by reducing fine lines and wrinkles
- Protects against oxidative and cell damage by maintaining skin's structural integrity, and potentially mitigating signs of aging
- Effectively reduces spot pigmentation and ensures skin tone uniformization
- Decelerate the aging signs of skin by accelerating collagen synthesis
- Protects skin from thermal and photo-aging which disrupts natural aging process, and prevents early visible signs of aging and premature skin damage
- Stabilizes skin at cellular level to promote healthy skin function
- Balances and protects skin microbiota to help deal with environmental impacts on the skin

BEYOND SKINCARE IT IS “RESKINCARNATION”

Curated meticulously in limited batches over the last 15 months, CEL’STRA Nocturne Glow Elixir Creme offers the skin more than rejuvenation and revitalization. It restores the skin’s rhythm through the sacred process of Reskincarnation - a deep, multi-layered awakening powered by ancient wisdom and modern delivery science.

The skin sheds and regenerates millions of cells every day, an act akin to a quiet reincarnation. With time, stress, and environmental exposure, this natural renewal slows. CEL’STRA steps in as a booster dose for this rhythm - awakening the skin’s inherent regenerative intelligence, just like Kayakalpa revives the body and spirit.

NATURE'S OPULENCE FOR SKIN

ILUUNA FACE BRIGHTENING SERUM

₹123,900 INR
\$1,380 USD
Size: 15 ml

Every skin needs a morale boost now and then. The wish for the appearance of radiant, glowing skin is always a good thought to linger upon and now can be achieved.

LET THE FACE TELL DAZZLING TALES

A skin brightening serum is a product with high-performance ingredients designed to visibly reduce dullness and discoloration. They are designed to visibly brighten an uneven skin tone for a more uniform look. Serums also have ingredients that simultaneously help the skin appear more refined and improve skin texture to enhance skin quality.

KEY BENEFITS

- Restores a perfect and even skin tone by blocking the melanogenesis process
- Effectively reduces melanin deposition in the skin, improving skin radiance and skin tone evenness
- Improves skin firmness
- Brightens and even out the skin tone
- Prevents UV-induced skin damage
- Protects the skin and prevents its inflammation
- Significantly reduces pore size
